

Our Mission

We are the Connecticut Society of Professional Engineers – one of the first state engineering societies in the country. Our mission is to promote the ethical, competent and licensed practice of engineering in order to protect the public and enhance the professional, social and economic well being of our members. We support the interests of our members through political involvement, leadership training, professional development and participation in programs and efforts to raise public awareness of the engineering profession.

THE RECOGNIZED VOICE
AND ADVOCATE OF
LICENSED PROFESSIONAL
ENGINEERS

Giving you the EDGE in your career

You love engineering and you've invested years of your life and hard work to become an Engineer. What are you doing to protect that investment? Think of your membership in the National Society of Professional Engineers and the Connecticut Society of Professional Engineers as insurance for your professional career.

Protecting your Professional Interests - NSPE and CSPE defend you against the unlicensed practice of engineering and assaults in Washington, D.C. and Connecticut to restrict your practice.

Networking and Business Contacts - Make valuable personal and professional contacts when you meet colleagues from all disciplines and types of practice at local meetings and seminars.

Access to Timely Information - Although you're busy, it's important to stay up-to-date on the latest professional issues. You can with con-

cise and interesting NSPE and CSPE newsletters, seminars, internet resources and more.

Develop your Professional Skills - Broaden your skills with continuing professional education, management seminars and useful publications. Active members can gain valuable leadership skills through active participation in state and local activities.

Public Recognition - Give something back to your profession with student outreach programs like MATHCOUNTS and public service programs that recognize the contributions of Engineers to society.

Vital Career Guidance - As an engineer, you need more than technical knowledge to advance in your profession. We can provide expert career planning, mentoring programs, and job search resources.

You're a professional. You deserve the recognition of membership in the engineering community's premier organizations – the National and Connecticut Societies of Professional Engineers.

The profession of engineering shapes our future... Shape YOUR future with CSPE!

Just getting started?

CSPE helps new engineers, recent graduates and EITs develop their careers through networking opportunities, professional development, and leadership training.

On the fast track?

CSPE offers transition guidance on starting your own consulting business or changing jobs.

We post notices of employment and partnering opportunities on our online classified listings page.

Ready to give back?

Help shape the future of engineering through political involvement, leadership programs, and student outreach opportunities.

"CSPE is the only organization working to protect the interests of the licensed engineer in Connecticut."
